Vegetatio **97**: 193–194, 1991.

Volume contents

Ohsawa, M., Structural comparison of tropical montane rain forests along latitudinal and altitudinal gradients in south and east Asia 1
Werger, M. J. A. & T. Hirose, Leaf nitrogen distribution and whole canopy photosynthetic carbon gain in herbaceous stands 11
Jürgens, N., A new approach to the Namib region *I: Phytogeographic subdivision* 21
Cody, M.L., Niche theory and plant growth form 39
Markert, B. & Zhang de Li, Inorganic chemical investigations in the forest biosphere reserve near Kalinin, USSR *II. The distribution of lanthanide elements in the vegetation cover* 57
Jha, A. K. & J. S. Singh, Spoil characteristics and vegetation development of an age series of mine spoils in a dry tropical environment 63
Rawal, R. S. & Y. P. S. Pangtey, Distribution and phenology of climbers of Kumaun in Central Himalaya, India 77
Pantis, J. D. & G. P. Stamou, Spatial distribution and density dependent growth and flowering of *Asphodelus aestivus* Brot. 89

Symposium on Ecology of Submersed and Floating-Leaved Aquatic Vegetation, Yokohama, Japan, August 23-30, 1990

Adams, M.S. & I. Ikusima, Introduction 97
Pietsch, W., On the phytosociology and ecology of Isoëtes asiatica (Makino) Makino in oligotrophic water bodies of South Sakhalin 99
Kurihara, M. & I. Ikusima, The ecology of the seed in *Trapa natans* var. *Japonica* in a eutrophic lake 117
Nohara, S., A study on annual changes in surface cover of floating-leaved plants in a lake using aerial photography 125
Kunii, H., Aquatic macrophyte composition in relation to environmental factors of irrigation ponds around Lake Shinji, Shimane, Japan 137
Tsuchiya, T., Leaf life span of floating-leaved plants 149
Wiegleb, G., H. Brux & W. Herr, Human impact on the ecological performance of *Potamogeton* species in northwestern Germany 161
Greger, M. & L. Kautsky, Effects of Cu, Pb and Zn on two *Potamogeton* species grown under field conditions 173
Große, W. & C. Bauch, Gas transfer in floating-leaved plants 185
Volume contents 193
